

Drinking Water Systems under O. Reg. 319/08

■ O. Reg. 319/08 systems, unless they serve a designated facility¹

If any of the above systems serve a designated facility, they fall under Ontario Regulation 170/03.

1. A designated facility can include child care centres, child and youth care facilities, children's camps, emergency shelters, long-term housing funded under the Community Homelessness Prevention Initiative, hospitals, psychiatric facilities, long-term care homes, cancer centres, homes for special care, senior's residences, clinics, other health care facilities, schools, private schools, university/college facilities, social care facilities receiving funding from the Ontario government (e.g. group living or intensive support residences, emergency shelters, sheltered workshops, employment programs, places that provide community participation services for people with developmental disabilities, violence against women programs and places funded under the Aboriginal Healing and Wellness Strategy). The definition for designated facility can be found under Ontario Regulation 170/03.

Note: This is a simplified figure. Please refer to Ontario Regulation 319/08 for more information.
