All feedback will be directed to the Human Resources & Communications Department and will be provided to the appropriate individual for response. Customers can expect to hear back within two business days.

Acknowledgement and follow-up replies may include: an outline of the next steps to be taken; who the complaint will be forwarded to (if necessary); or a proposed solution to the source of the complaint.

Feedback is reviewed monthly by the WCWC Management Team to help with business planning and customer service improvements.

2.2 Response to Complaints

If the complaint can be resolved immediately, the Centre's acknowledgement will describe the action taken to resolve the complaint.

If the complaint cannot be resolved within the above time limits, the acknowledgement will include information about the steps being taken regarding the complaint, and where appropriate, whether a further response will be provided about action taken by the Centre to resolve the complaint.

The steps being taken regarding the complaint could include:

- The issue is being redirected to another organization who is directly responsible for taking action on this issue.
- The issue is being discussed and explored with another organization to determine if and how the Centre can resolve the complaint.
- The issue is being tracked by the Centre to determine if the problem is systemic as opposed to an isolated incident.
- The issue will be considered in the future when the program is undergoing a periodic review.

This does not lessen any obligation for taking immediate action to resolve a complaint.

Where possible, the Centre's response will be in the same format as the complaint, unless another format has been requested. This will apply to the format of the acknowledgement and ultimate response.
